## MARIJUANA BUDTENDER / TRIMMER / GROWER

I am a dedicated and self-motivated professional with a strong desire to secure a rewarding position in the cannabis industry. My passion for marijuana as a medicine comes from my own struggle with Crohn's disease and I have over 3 years of successful experience in cannabis cultivation and production. Amongst other things, I recently acquired multiple certifications as a Master Grower, Indoor Soil Grower, and Budtender from reputable online training institutions, and I possess a diverse understanding of different strains, medicinal effects, growing mediums, climactic controls, harvesting, trimming, curing, and various other applicable techniques and methods. In addition, I have a diverse background in equipment maintenance and repair, I have set up and managed successful grow rooms, and I have been consistently commended for my perseverance and willingness to learn.

Planned and coordinated all phases of multiple indoors grows and 2 outdoor harvests. Built-out a 14x14 room with over 50 total plants, utilized a SCROG methodology, and upgraded from HPS to LED/CREE lighting systems. Experimented with both photo and autoflower varieties and successfully grew high-grade strains including Headband, Blue Dream, Green Crack, Chem Dawg, and Chocolate Mint OG. Sourced seeds from Humboldt County, cut clipping for clones, and kept mother plants healthy. Created custom soil mixtures and compost teas, organized watering and nutrient schedules, and have worked with a DWC aeroponics set up. Oversaw all harvesting procedures, wet and dry trimming, and proper curing processes. Honed skills and implemented successful strategies to increase yields from 17 to over 70 pounds per harvest.
